I'm web developer with a solid foundation in both Frontend and Backend, seeking an opportunity to leverage my skills and contribute to a dynamic team as a Full stack developer. As a freelancer I completed several projects successfully and recently completed NodeJs Backend Internship at payme.uz.

Technical Skills

Frontend : Tailwind, Javascript, Reactjs, Redux-Toolkit, Axios, Nextjs, Typescript, Vue(basic)

Backend : NodeJS, NestJs/ExpressJs, PostgreSQL/TypeORM/Sequelize, MongoDB/Mongoose

Languages

English: B2

Russian: A2

Uzbek: Native

Experience

Backend Intern ([payme.uz](#))

06.2025 - 09.2025

- Participated at modernization of one of the core parts of payme and refactored several functionalities and moved them to new architecture and also added new features to this core parts.
- Wrote more then 50 unit tests for repositories, usecases and increased coverage of code.
- Created a startup project inside payme for self-employed people which gives opportunity to create business account on Payme Business and to create invoices for payments.
- As an intern I learned clean architecture principles, design and architectural patterns, testing principles, DDD, EDA, Microservices and also used them in real practice.

Full Stack Intern ([Realsoft Academy](#))

12.2023 - 04.2024

- During this internship I learned a low code platform named Platon. This platform uses Html, Css, Bootstrap and Vue for creating UI of website and PostgreSQL for creating API.

Freelancer (Kwork.ru)

03.2023 - Present

- Developed several websites and web apps for clients with Html,Css,Js,ReactJs,, ExpressJs, NestJs, PostgreSQL.
-
